DETAILED ACTION

Drawings

1. The drawings were received on 29 April 2010. These drawings are acceptable to the examiner.

Allowable Subject Matter

2. Claims 21-24, 76, 77, and 85-100 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose the electro-optical device of claim 21, in particular the limitations reciting the following electrode structure: a gate electrode and source wiring, a first insulating film formed on them, a semiconductor layer formed over the first insulating film, a second insulating film covering the semiconductor layer, and a gate wiring (connected to gate electrode) and a connection wiring (connecting source wiring to semiconductor layer) formed on the second insulating film. Claim 21 is therefore allowed, as are its dependent claims 22-24, 88-90, 93, and 97.

The prior art does not disclose the electro-optical device of claim 76, in particular the limitations reciting the same electrode structure discussed above with respect to claim 21. Claim 76 is therefore allowed, as are its dependent claims 77, 85-87, 94, and 98.

The prior art does not disclose the electro-optical device of claim 91 or of claim 92, in particular the limitations reciting the following electrode structure: a gate electrode

and source wiring, first insulating film formed on them; channel formation, source, and drain regions formed over the first insulating film; a second insulating film over the channel formation, source, and drain regions; and a gate wiring (connected to gate electrode) and a second wiring (connecting the source wiring to the source region) formed on the second insulating film. Claims 91 and 92 are therefore allowed, as are their dependent claims 95, 96, 99, and 100.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
